

Greg Smith Equipment Sales And The Dover Corporation (RLC) Are Proud To Announce That Our Four Post Hobbyist Lifts Are ALI/ETL Certified

Greg Smith Equipment Sales is excited to share some important information about our four post hobbyist lifts. We now offer the lowest priced certified hobbyist four post lifts sold in the USA and Canada. The **Direct Lift PP-8 S...** the **Direct Lift PP-8 Plus...** and the **Direct Lift PP-9 Plus** have all been third party tested and have passed these stringent tests with flying colors.

Test parameters:

ANSI/ALI ALCTV:2006 Standard for Automotive Lifts

- Requires minimum safety factors such as 3:1 for strength of ductile metal, 3:1 for valves, fittings, & cylinders, 4:1 for hoses, 5:1 for cables that hold the loads and 4:1 for fasteners. 1.5:1 for the pumps.
- Lift is physically tested to 1.5 times the rated load, fittings and cylinders are subjected to 3 times the operating pressure, 4 times the operating pressure for the hoses, and 1.5 for the pumps.
- Pumps must contain a relief valve set for no more than 120% of the operating pressure.
- The lifts must be accompanied by installation and operating manuals which include appropriate inspection & maintenance instructions.
- Standardized safety labels are installed and vehicle lifting point information included.
- The lift capacity must be shown on the lift nameplate.
- A quality assurance system must be in place for the manufacture of the lifts.

Certified lifts will carry the gold ETL/ALI label.

At this time, we believe that the three Direct Lift models are the ONLY off-shore hobbyist four post lifts that are third party tested. The Direct Lifts are made off-shore to the exacting standards of THE DOVER CORPORATION. That's our story; and we're sticking to it!

Greg Smith Equipment has hundreds of these four post lifts in stock at their three convenient locations. ALI/ETL testing was performed on the Direct four post lifts that were in-stock at the Indianapolis location. The ALI gold certified label is not affixed to the Direct four post lifts presently in stock at the three Greg Smith Equipment Sales locations. The Gold ALI labels will be affixed to the four post lifts that will arrive at our locations in about 60 days. The Direct four post lifts (presently in stock) and the Direct four post lifts with the Gold ALI label are identical.

ALI will not provide the ALI Gold label for the Direct four post lifts that have left the factory and are currently in stock at Greg Smith Equipment.

Here is the deal:

The Direct four post lifts that are presently in our warehouses and the Direct four post lifts that will have the ALI/ETL Gold Label are identical. You can wait on the Gold Label lifts (about 6 weeks) and pay a higher price... or buy now and receive the exact same quality lift in about 5 business days.

Greg Smith Equipment Sales and THE DOVER CORPORATION are NOT charging extra for the THIRD PARTY CERTIFICATION of the four post lifts. The reason you will pay more is because fuel and steel continue to escalate in price, so those lifts we receive in six weeks will cost MORE than the lifts we now have in stock.
